jurismus international meeting  
june 25th-26th 2010

# Jurismus

**J**urismus is an international association of active young lawyers employed in one of the 650 law firms taking part in Europe's biggest law network, Eurojuris International.

Jurismus derives its status from Eurojuris International and is thus a sub group of Eurojuris International. However, Jurismus acts as an independent association with its own objectives, activities, and organisation.

## Our objectives

We want to attract the best European young lawyers to the Eurojuris International network and its member law firms, by:

- Establishing an extensive social and professional international network for young lawyers
- Promoting and facilitating B2B between young lawyers
- Improving young lawyers personal, professional and intercultural qualifications through training, debate forums, and high quality academic programmes
- Being the gateway for young lawyers to Eurojuris International and facilitating young lawyers' entrance into the network and its specialist groups.

We realise that good cooperation between professionals requires understanding as well as trust – both of which are achieved amongst lawyers through our network and its various high quality activities.

## Our activities

Social contacts and networks are often as important as professional skills. Every year Jurismus members organise a number of professional and social events on an international, regional, and a national level.

Internationally minimum two yearly events take place – every year in a new European city and organised by the local Jurismus members. The events such as the yearly cross-border surveys and thorough introduction to the different European legal systems guarantee the necessary academic and social skills of each participating Jurismus member.

Furthermore Jurismus has created a unique European lawyers exchange programme and the members have formed national or regional groups meeting for cultural and professional activities of special interest to the participating nationalities. For instance a Franco-speaking, a Benelux, and a Nordic Jurismus group meet every year to debate topics of mutual interest and to strengthen relations.

Jurismus has more than 100 active members under the age of 40 in 19 different European countries, including members or correspondents in most Eastern European countries.

## Our organization

On top of the Jurismus association the international Jurismus Board is in charge of general administration, cross border surveys, newsletters, exchange programmes and yearly events. In every member country a national representative is appointed head of national activities.

# welcome to maastricht

**A** very unique congress will take place in Maastricht in June 2009!! And YOU are more than welcome to join us!

The congress will take place in Maastricht, the birthplace of the European Union and its currency, the euro. Both were established in the Maastricht Treaty, concluded here seventeen years ago. This world-famous treaty has also proven to be a huge advantage for our city. Our European status is largely due to our geographical location. After all, the Maastricht region shares two hundred and twenty kilometres of border with Belgium and Germany. People, goods and services are constantly crossing the borders here. Therefore, in this region we are more or less forced to think and act as genuine Europeans.

Nowadays there are less borders for people to do business all over the world. The many differences between the various national legal systems in Europe are alleged to lead to uncertainty. This uncertainty will deter business people from contracting with a party from another legal system. A uniform private law is a necessary requirement for the coming into being a European single market. Therefore a uniform European private law has to be created. The question is how to reach a European *ius commune*. Possible answers to that question will be put forward at the JURISMIUS INTERNATIONAL MEETING at Maastricht.

During the meeting you will also have (more than enough) time to enjoy all the delights of our charming city centre, and to soak up the wonderful European atmosphere. And do not miss the visit to the KAZEMATTEN, a network of underground passageways and bunkers used for defending the city against enemies between 1575 en 1825. A once in

a lifetime experience accompanied by professional guides. Accommodation and Congress will be located in Maastricht centre. The famous café's (pubs) of Maastricht and it's nightlife are within walking distance.

I therefore hope that Maastricht will offer you sufficient inspiration for a fruitful debate on the future of Jurismus, the international association of young lawyers from different countries.

COME ALONG and visit our wonderful country!

Sandy Bruyns-Emons  
Wolfs Advocaten  
s.bruyns@wolfsadvocaten.nl  
www.wolfsadvocaten.nl

The 2010 Jurismus International Meeting is hosted by the Maastricht-based EUROJURIS lawfirm: Wolfs Advocaten

Wolfs Advocaten is a modern, quality-oriented law firm specialising in areas of law that businesses may come across. The office is established in the historical inner city of Maastricht and is nationally as well as internationally active.

Wolfs Advocaten in Maastricht specialises in legal solutions in areas of law that companies can be faced with in the Netherlands as well as abroad. Wolfs advocates and lawyers are motivated and ready to give you sound legal advice and expert assistance in legal proceedings. The office was established in 2003 and consists of a young, dynamic team of 5 lawyers. Their approach is characteristically solution-oriented. By pro-actively thinking along with the client and with the courage to be creative, they provide tailored, top-quality services.

The Managing Director John Wolfs, himself a thoroughbred entrepreneur, has been active as an advocate for over 15 years. After his career as an advocate in top offices including in Washington D.C. and Rotterdam, he chose Maastricht as the location to establish his law firm. This is due to his Maastricht roots and the quality of life in this area. Our clients often want to enter into a long-term business relationship with our firm. The Wolfs Advocaten clientele consists of entrepreneurs in logistics, industry or trade, but also for instance insurers, insurance brokers and property developers.
